Attackers Scale Platend Slopes.

Driven out of Nanteuil and Braye the Germans nevertheless still clung or to the intermediate position comprising Vailly and the important bridge on the Aisne, by which they could threaten the French flanks. The movement was then soon carried, and the attacking troops scaled the slope of the plateau north of

Maison farm and a country house to the right, gaining several hundred yards of fighting. ground on the summit of the plateau. Substantial progress was almost made east of Nanteuil and by the afternoon only one narrow gap was left through which the Germans could withdraw the troops in the region of Conde, Celles and Sancy. These detachments are in seri-

ous danger of capture. The violence of the French attack threw the enemy into such disorder that he was unable to bring up reserves quickly enough and consequently lost several guns. Toward the end of the day the French made further progress between the plateau of Vailly and Braye, all villages south of the famous in des Dames being taken.

Advance More Than Three Miles. The advance toward Courtecon during the last three days has been even great er and amounts to more than three miles in depth. In the center the battle raged most fiercely in the region of La Ville-Aux-Bois. The wood east of the villages, 2000 yards long by 500 in depth, was very strongly held by the en-emy, no less than 180 machine guns beng crowded into it. All these were captured together, with 1800 men, by clever maneuver which cut off the wood from the rest of the line.

The army on the right from Prunay to Auberive, by skillful maneuvering, cleaned the Germans out of most of the heights in front of the villages of Moronvilliers. On one of the crests sev eral heavy guns were captured.

On the whole, when the wretched weather and the difficulties of the terrain are considered, the day's work i ensidered most satisfactory, and it is believed that it paves the way for far re rapid progress in the near future.

Last Night's Official Report. Since the beginning of the great French drive on the southern end of the battle line the French have captured 17,000 unwounded prisoners, to-gether with 75 cannon, according to the official statement issued by the War Office last night. It says:

It was undoubt edly with these strategic switch lines in view that Field Marshal von Hindenburg recently declared that the lines in the West could not be broken.

Much Labor Required. The preparation and maintenance of the elaborate system requires an untold amount of labor, for each sec ion of trench must have several belts of wire front. The Germans have become so accustomed to fighting behind barbed wire that they would not think now of doing otherwise, if it could be avoided. Most of the igging appears to have been done by prisoners of war. As the Geran line falls back, the diggers also fall back to construct still more renches in which the Germans may later find shelter.

Under this plan, of course, it would b possible to drive back the Germans to the Rhine, and they could still say the line was unbroken. In the meantime, the Germans are employing more ma attempt to hold up the British infantry advances. Several times by his order Belgian cities and towns were fined heavily for alleged breaking of rules laid down by him. He had been ill at been showered over the German li times for more than a year.

REPORT ON CROP CONDITIONS THROUGHOUT THE COUNTRY

Winter Wheat Short, Increase in Pe tato Planting; Labor and Loans for Farmer. A statement of crop condition

throughout the United States, based upon reports made by the Federal Loan Banks to the Federal Farm Loan in St. Louis today by Herman W. Dan forth, president of the St. Louis Fed eral Land Bank. This report shows: That the winter wheat crop will be short to as great extent as indicated

by the preliminary reports. That the shortage of farm labor and the high price of seed will prevent any great increase in the potato crop, commercially grown, but that there will be a big increase from planting of small plots for home consumption.

That an organized movement has

een made in all parts of the United to help the farmer meet the present food crisis by providing him with additional labor and seasonable cans at low rates of interest.

The reports show that the situation with respect to the wheat and potato

EAST ST. LOUIS ALUMINUM PLANT CLOSED BY STRIKE

Allege Fallure of Some to Ger

Wage Increase and Dismissal of Union Members. About 1200 of the 1700 employes of the Aluminum Co. of America's plant in East St. Louis, who went on a strike last night and this morning, held a mass meeting today in the auditorium of the East St. Louis city hall. It was decided to hold another meeting at Eagles' Hall tonight, to decide whether the strikers should affiliate themselves with the Ameri-

can Federation of Labor.

The strike started at 11 p. m. yesterday, when men scheduled to go on duty at that hour refused to do so. Men working on other shifts were

The company's employes have no union, but are banded together in the Aluminum Ore Employes' Association

C. A. Lehman, chairman of today's meeting, said that after a strike last October the company had promised an ncrease in wages, but about 200 of the mployes had failed to obtain this increase. Another grievance, he said, was that since Nov. 1 the company has laid off nearly 1000 members of the Protective Association and replaced the

Mrs. G. V. R. Mechin of 5088 Rayond avenue, president of the Womn's Council, told that her organization some months ago had urged its members to adopt meatless, eggless, butterless and potatoless days. This was done in an effort to reduce prices. It was not urged that a designated day without meat or potatoes, but that by each woman doing without these oods on a certain day each week, the lemand would be lessened, and the price might drop.

"But the women have not lived up this," Mrs. Mechin added. "They tell me that their husbands won't let them. One woman's excuse was that her husband couldn's get along withut eggs every day."

"PETER IBBETSON" IS AN EFFECTIVE DRAMA

By Leased Wire From the New York Bureau of the Post-Dispatch. NEW YORK, April 19.—After the great cess of the dramatization of "Trilby" 22 years ago, it was in the natural order of things that George du Maurier's earler novel, "Peter Ibbetson," would find a sponsor in the theater. But the dif- Allen, soprano; Lillian Snelling, contralficulty of managing the scenes in which Du Maurier's hero lives his dream life, with memory of his childhood days in Passy, discouraged the playwright and

from the East, has wired a change in night. It has already passed the Senthe Saturday program, made in re-Republic Theater that an American au-dience saw "Peter Ibbetson" on the stage in a dramatization of atmospheric beauty, peculiar charm and striking dramatic effetiveness by John N. Ra-phael. Not only has the adapter arranged to tell the story coherently and strictly in terms of the theater, but he has succeeded in compressing in the acts so much of the fine flavor Du Maurier gave the story, and so much of the pathos of its central characters, that it won an unexpected success with its first audience.

An important element in the American

fortunes of this dramatization will lie in the capital interpretation by John Barrymore of its sensitive, finely drawn hero, Peter. The character is almost perfectly adjusted to Barrymore's abilities, which were displayed even more effectively than in "Justice." The play also had the added interest of bringing back from his 12 years' retirement Lionel Barrymore, who was almost as successful in his striking study of the malignant Col. Ibbetson, whose slanderous pathetic fate as a life convict in New-

These scenes, which are sublect to great mechanical difficulties. are nevertheless skillfully blended with the actual incidents of the story, which reach their climax in Ibbetson's assault upon his uncle in

the latter's rooms in London. Effective as was John Barrymore's acting in the various phases of Ib-betson's life, it by no means stood alone in the general performance. Although she was somewhat mature for the role of the Duchess, Constance the character. Laura Hope Crews was likewise excellent as Mrs. Deane, and Wallis Clarke drew a pathetic and human picture of the aged Major. Among the dream characters, Vernon Kelso and Miss Bogislav appeared to Joseph Eagles and Madge Evans, two child actors who lent interest to the scenes in which they appeared.

of Germany, employed as a cook in the Belvidere Cafe at 4908 Delmar boule-vard, was arrested at his room, 200 South Broadway, after Miss Elinore Stanway of 615 North Euclid avenue had reported a remark which she said Hoffman made. She said she was visiting the wife of the restaurant proprietor, and that in a discussion which arose in the restaurant it was suggested that there might be a revolution in Germany. The cook, she said, then declared that there would be a revolution in the United States before there would be one in Germany, and she said he added "To hell with Wilson." The arrest was made at the request of United States District Attorney Oliver.

Herman Flohr, 27, a fireman, a native of Germany, who has been living at Father Dempsey's Hotel, was arrested at the Maryland Hotel. Richard Mc-Carthy, baggageman at the hotel, said Flohr had been acting suspiciously. The details of his conduct which aroused suspicion were not made known by the

A literary woman in Los Angeles, being so highly elated over her success in reducing, has written a clever little poem, which recites the facts and expresses deep gratitude as well. To safely and surely reduce from 20 to 60 pounds is easily accomplished when tablets Arbolone are used regularly. They are not drastic or dangerous, used as directed, but simly and surely dissolve the fatty elements and eliminate from the system. Also, they remove the craving for such foods as are not desirable for fat folks to use. Herein, Arbolone is superior to all other antifat medicines, as it automatically overcomes the abnormal, perverted appetite for starchy foods, etc. Sold by all druggists in sealed tubes with full directions.—ADVERTISEMENT.

F WE'VE ANSWERED the above query once, we've answered it a hundred times-in person and by phone during the last 10 days. We've had dozens of letters from out-of-town customers asking the same question. Our answer, so far, has been indefinite. All we could say, until now, was: "It will be within the next few days." La Vogue Suits and Coats

At Less Than Manufacturers' Cost

To the large majority of St. Louis women-in fact, the women of any part of this great United States, the merits of superiority of La Vogue garments are so well known that the simple, plain announcement that they are to be on sale at a pronounced underpricing, is sufficient to bring to our Suit and Coat Floors more customers than we can wait on.

But we're looking farther than that. We want more women to know all about La Vogue garments. So for the benefit of those-we mean prospective customers-we're going to delve into a few details—give a few "hows" and "whys" of the superiority of La Vogue garments and what this annual sale means -- and what it means to us and to our customers.

LA VOGUE Garments are the standard of style. All the fashion arbiters and style authorities concede them that. The very name, "La Vogue," has long since been looked upon and recognized as a synonym of correct, up-to-the minute style. They are the first to bring out the latest Paris ideas. They introduce late style changes oftener than any other manufacturer in the world-except the Parisians themselves. The fabrics, the trimmings, linings, the tailoring, finish and the unseen parts, such as interlinings, seams, etc., are on a par with their styles. .

THIS is a semi-annual event. Twice a year-and only twice, is this opportunity offered-immediately after Thanksgiving and after Easter. At these times their season is over, and they. being large conufacturers, invariably have several hundred output on hand. They've had a big season, and are ready to close out their surplus stocks, including show room and road samples at a "price." We are their largest distributors and are always given first call. Thousands of our customers know this, and have acquired the habit of waiting for the sale—"a good habit," by the way.

Washington Embassies Hear Pro gram Is to Carry Democracy to Enemy by Force.

PETROGRAD, April 19.-Russia's al lies need have no fear that she will desert the alliance or weaken her resistance to the enemy, Prof. Paul Miliukoff, the Foreign Minister, said today in an address to the, representatives of British and French workingmen who are now in Petrograd.

"We understood that at the moment of the revolution you might be afraid we would lose our strength for re-sistance," said the Foreign Minister. "I beg you to announce to your coun-trymen that free Russia has become doubly strong through democratization.

Russia to Stand by Alies to End Says Miliukoff.

WASHINGTON, April 19.—Ambas-sador Francis has cabled the State Department that, during a recent conversation with the new Russian Foreign Minister, Miliukoff declared he was absolutely certain there was no possibility of a separate peace be-tween Russia and the central Powers being negotiated. Similar advices have reached allied diplomats here.

Miliukoff said that the Socialists at Petrograd have not suggested a separate peace with Germany or Austro-Hungary. The most radical elements in Germany are, on the other hand, advocating revolution in the central empires. These Socialists advocate the deposition of Emperor am and Emperor Charles, their programs thereafter calling for a universal Socialistic peace.

The Russian Government is per turbed, the department has been advised, by the agitation of the extreme Socialists. Their clamor for radical measures daily becomes stronger. Even this class of Socialists does not desire the war to end with results short of those defined by the pro-visional Government but, despite this good intention, fear is expressed that L. R. G. Secretary Houston said the Council of National Defense had under consideration definite plans affecting the food situation, but had not determined on a definite program. Rhett said many Chambers of Commerce already had prepared plans to meet the food situation in their cities, but the general organization wished to work with the Government as efficiently

Overcrowded Movies.

To the Editor of the Post-Dispatch.

I am at something of a loss to understand the police of the Department of Public Safety in its ontrol of theaters. Recently I have seen the control of theaters. Recently I have seen the lobbles and the space back of the seats in popular priced vaudeville and picture theaters so crowded that persons could not move. I have seen firemen, ostensibly at the theater on guard, so wedged in that they could not move. I have seen a woman faint in such a crowd and it required five minutes' time for the ushers to get to her to carry her out. Such a crowd as this was stion for the will of the people is still so recent naintained for more than an hour. In at least one case the ticket seller assured an inquirer that ld get seats. A fire alarm in such a theater

would mean an appalling situation.

GREATEST CREDIT IN HISTORY.

Fears of unpleasant consequences after the war rom the \$3,000,000,000 credit to the entente nations provided for in the \$7,000,000,000 national oan were expressed by Senator Cummins.

As a heavy creditor of foreign nations, some of which will be practically bankrupt when peace in Vienna's deeds. comes, our interest in their policies may force is into devious ways in the future and draw us into embarrassing entanglements. That was in effect the Senator's view.

Perhaps the possibility was worth pointing out in a legislature fully conscious of all the responsibilities it assumes in authorizing the loan. We shall not, however, be involved in the post-bellum the hen? politics of Europe unless we will so to be in-

Our great gratitude to and alliance with the French did not cause us to be entangled in the ortuous policies of revolutionary and Napoleonic than we had at that time.

Probably one of the most useful purposes of the burden of supporting the smaller allies-Belgium, whose Government is in exile and practically revenueless: conquered Servia, overwhelmed Rumania and possibly Italy. Cuba, on our own continent, has special claims for our consideration.

After these objects have been provided for, doubtless the remaining and larger portion of the credit will be devoted to the needs of Russia and France. Unless Europe is regenerated and its sinister aims and purposes turned to worthiness, one of the great ends with which we enter the war will be defeated. Participation in the concerns of the monarchial and autocratic Europe of the past had for us a grave menace of entanglement. Participation in the concerns of a democratized Europe, of a United States of Eurasia, has o such menace.

The size of the total loan and the unanimity of Congress in approving it are properly held to be convincing evidence of the gallantry with which Forest Park is bounded on the east, north and we shall take our place in the struggle and respond to all the demands made on us in the war The property there is against the most obnoxious things that can be exemplified in human government and against 'the cruel and unmanly business" in which Germany is engaged.

WHAT WOMEN CAN DO.

Every American housewife has it within her power to contribute actual service to her country in the dark days shead. She can do her duty in and ruin the park. Let it be done tefore it is the kitchen as surely as her son can do his duty the Governor to curb the lawlessness, have done on the battlefield. While the men and the finan- well. Appeal to city officials whose betrayal of cial resources of the country are being mobilized trust foments such disorders seems to be futile. to fight the common foe, the housewives can mobilize to fight waste and extravagance. President Wilson's appeal to them to practice econsee where the police in Chicago are visiting omy is no less important than his appeal to men saloons for all ablebodied men, giving them 10 days' time to go to work. As there are many ablebodied men here loafing in club rooms and League for Women's Service so aptly puts it:

By wise marketing and by preveting waste in the preparation and serving of food, women can help feed America and our allies. By rationing themselves and their families, the the women of America can obviate the necesity of a Government prescribed ration.

Such a plea is not intended purely for the selfish purpose of pointing out how women in this country can avoid the discomforts of war-The great war is more likely to be ended in the world's kitchens than in the trenches of France

The tango lizard and the pool-hall habitue don't make the most promising material in the world for soldiers, or for any other useful occupation Nevertheless, a competent drill Sergeant some times can do wonders with even minor grade timber. There is a lot of good in almost any constitutional idler if it can be developed, and as a developing agent the army drill master has

few superiors. The Maryland plan is one that ought to adopted everywhere. One of the chief arguments in favor of universal service is that a volunteer army system will take the best blood of the coun try and leave the slackers, who could be most profitably spared. If the scheme were employed generally there would be such a scramble for regular jobs by a lot of flabby, soft-handed young men that the employment agencies would be kept busy overtime. Even that would be something gained, conscription or no conscription.

VIENNA IS LEARNING.

"Russia desires a peace founded on the right o peoples to dispose of themselves," says a semiofficial statement issued at Vienna. "The Austria-Hungarian Government is inspired by the same desire." Therefore, according to the statement, a peace between Russia and Austria-Hungary ought easily to be arranged.

How Vienna disposed of the people of Bosn and Herzegovina without the slightest considera as vividly to be remembered. If it had not at tempted to dispose of the people of Servia ac cording to her own will she would not now be

under the necessity of appealing frantically for peace. Bohemia has long been striving for selfgovernment.

The war has already effected a marvelou change in Vienna's professions. By the time the lesson has continued a few months longer it may be expected to cause an equally striking change

MOBILIZE THE MISSOURI HEN.

One million setting hens supplementing the efforts of 100,000 credit will be in relieving British finance of the incubators should be in operation in Missouri at this moment and should be kept in continuous operation until midsummer. Well enough in their way, backyard gardens, potato patches on vacant lots, farm armies and greater and better crop conferences are, after all, only paltering with the problem. What if we are reduced to meat cards and flour is distributed on Government requisition and potatoes and sugar go to twice their present price, provided omelets and fried chicken a la Missouri are available in plenitude?

The Show Me hen confederated in purpose with the hens of other states can do as much as any known agency to avert the crisis and peck the gaunt specter of famine so full of holes it will be glad to take to flight.

LEBANON COLLEGE DEAN MOBBED. The lesson of the mob outbreak at Lebanor Ill., on election night is that lawlessness breeds lawlessness, in geometrical progression.

Two years ago the town, which is the seat of McKendree College, was voted dry. A dry administration, pledged to enforce the law, was elected. The pledge was not kept. At first covertly and then openly and flagrantly the law was violated without rebuke. Members of the administration visited the saloons, which were pen week days and Sundays.

Volunteer efforts at law enforcement met with hindrance.. Citizens who protested against these conditions were threatened with harm. Saloon keepers and their hoodlum satellites ran the town. Because of this lawlessness the town was voted wet last Tuesday. The argument was that might as well have the revenue. It appealed to enough to decide the issue.

Then the disorderly element, emboldened by official inefficiency and connivance, committed its beauty. Pedestrians and vehicles would be in as not merely to avoid suspicion of scandal but to the outrage of attacking the home of the dean of McKendree College, hurling rocks and brickbats, and when he stood forth, unresisting, and attempted to remonstrate, he was stoned and pelted with mud and showered with foul and obscene revilings in the hearing of his family.

The college officials, in deciding to call upon

A VIGILANTE MESSAGE.

(The Vigilantes are an association of American writers and artists who are contributing original articles on patriotic subjects pertaining to our foreign affairs. Its purpose is to arouse the country to the importance of problems confronting us; awaken a sense of public service in the youth of he land; to work for mental, moral and physics preparedness, and especially to work for universal ilitary service. The following is one of a series which will appear on this page.)

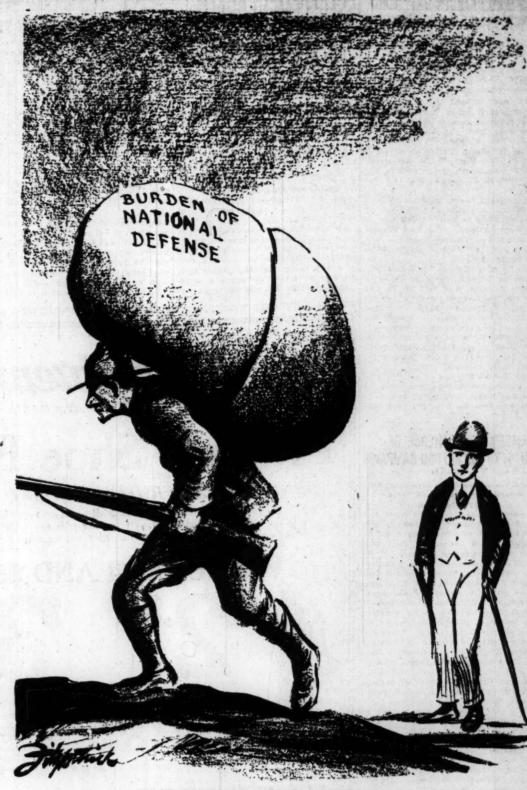

SOMETHING FOR NOTHING.

By Robert Grant of the Vigilantes. It is easy to show what the pacifist is after -to get something for nothing. He is content to be protected by the other fellow and to let him bear the suffering. Unconsciously if you will; but many injurious states of mind are sub-conscious. When the other day I asked a pacifist, who was inveighing against our preparations for war, what would befall us if the mad dog ravaging Europe was not knocked on the head, he answered complacently, "He is sure to be."

Is democracy so precious and sacrosanct that it can not afford to bear its share of humanity's burden when civilization is imperilled? We were "safe" (ignoble word) because we were isolated; but this is true no longer. The new agencies of carnage have metamorphosed all that. We are safe today because of the British fleet. What if its protection

were withdrawn or Germany prevailed? Are you fatuous enough to believe that the end of this war with its hates will bring general disarmament? Or that Germany will be dispossessed of the Kiel Canal and cease to use submarines? We Americans are so prosperous and hopeful of seeing the millenium realized within our borders that we refuse to look facts in the face.

Unless we would be likened to partridges. waiting to be knocked over by a club, we should adopt universal military training. Not in order to fight, but to be able to defend our liberties and redress wrong when righteousness demands it. Yet for another reason-in order that the young may give automatically of themselves to their country, not require all and return nothing. It is of the essence of patriotism that every man should be obliged for a time to lay aside his own concerns and be made fit to act in a national emergency. The hope of ending war lies not in supine or limping avoidance of responsibility, but in the complete power to say it shall not be. The war to end all wars will be waged by one forearmed. If the United States-the lode-star of democracy-neglects through faulty vision or false sentimentality to help police the world, its yearning for peace will be that of one who demands something for nothing.

THE VOLUNTEER SYSTEM.

JUST A MINUTE

Written for the POST-DISPATCH by Clark McAdams

OCRATES: We had a thumping big crowd at the Agora last night, and the debate was one of the best of the season. The subject was what might reasonably be expected of the war from

this time, and almost all the cosmics were out. Polemarchus: The cosmics? Socrates: You know what I mean—the thinking people interested in the sum of things, as distinguished from those interested in any one thing. Thrasymachus: You mean those whose heads are

high all the way round. Socrates: You might say so. At any rate, someone was kind enough in the end to suggest that I express what might be said to be the conclusion to which we had all arrived, and I tried to do that. The war, so it seemed, is not to last much longer. Glaucon: How much longer?

Socrates: Well, it will do well if it lasts through the coming Summer, and if it holds out until Fall it will be because something unforseen happened. The end of the war is coming fast. There was, of course, only one way in which it could end with any assurance of peace: That was for the allies to beat the Germans upon the western line. Until that was done it was alike futile to talk of peace and dangerous for peace to intervene. An ogre had arisen in Europe, and that ogre has to be slain. The allies know that, and no sacrifice is too great in the tremendous struggle to that end. St. George would as well have fought a draw with the dragon as for the allies to lay down their arms before Prussian militarism is beaten.

Glaucon: By jove! You said something there, Socrates.

Socrates: Once that great battle is won, the war will collapse. The militarists of Germany will go down under the feet of their own people and the foe alike. But that isn't going to happen until militarism has determined that peace is its master. It must be beaten and smashed—both to convince it of its own futility and to convince the German people of its futility as well. That is a terrible price for the world to pay, but it is going to pay it. Polemarchus: You think, then, that the war is

going to get its finishing touch on that western Socrates: Of course. It is not to be settled in a

fight with the Russians, or with submarines. It is going to be settled right there on the west, with cold steel and hell's fire. That is the only way it can be settled, and stay settled. Not one single suspicion must remain that what Germany has been doing for forty years is practicable. The last head of that monster must be stamped underground. Glaucon: It is quite so. I give the war as long

as it will take the allies to make Germany cry

"Hold, enough!" Socrates: Then that is settled. Now let us separate before we excite the suspicions of the secret service.

Ten years ago the rural school system of the State had not advanced far from the old log schoolhouse and the grantin of a vacation whenever the majority of ils was needed for the hard ing of some crop or the spring planting Even five years ago there were few schools in the rural sections of Mississippi which attempted to give complet secondary education. Today, however 83,087 pupils are receiving an education in these consolidated rural schools, their curricula giving courses equal to those offered by city schools.

Under the direction of the State De-partment of Education, aided by Federal agents, the consolidated school has one made the social and economic as well as the educational center of the com nunity. It is one of the gerat infly ences, according to the educational officials of the State, which are keeping Mississippi's farm boys and girls at home, and has done a great deal to advance the "back-to-the-soil" movement which has done so much to rehabilitate the farms of this part of the South.

One's Own Carpenter

UR two hammers and our nail box are among our hardest used implements," the St. Louis Bachelor Girl remarked to the old friend from home. "Without them we ould never have made this little place of ours so comfortable and attractive. Or, perhaps I should say convenient, for or, perhaps I should say convenient, for much of our carpentering is out of sight. What we have done is very simple, to be sure, but it is equally useful. Take these bureau and chiffonier drawers, for example. They did not happen to be the kind that came divided into sections. We wanted separate compartments for various small belongings, so we made

our own divisions. Instead of buying wood, however, and sawing it up, we bought what the carpenter called composition board which we could cut more easily. It was really but little work to make the partitions and nail them in. Then we had a brilliant idea about our shirtwaist boxes. We decided it would be an excellent hing to have trays in them. So we made those next.

"We used that same composition board and made trays five inches deep. A small strip of wood, nailed across each end of the boxes, held up the trays in place. We punched holes through each and tied in cords or pieces of ribbon for use as handles. We find the deep lower section of the boxes excellent linen chests, while the upper trays are convenient places for keeping shirt-

Health Education in China

DUBLIC health education in China is being carried on by the Council on Public Health, an organ-ization formed for the specific purpose and representing three great institu-tions—the China Medical Missionary Asociation, the National Medical Association of China and the Young Men's Christian Association. The second is a professional organization like the American Medical Association in the United

During the health campaign meetings are held daily for a week. Admiss is by ticket, which can be obtained from the police or through some other agency for distribution. Every morning and afternoon the people are invited to inspect an elaborate health exhibit, pre-Young Men's Christian Association, and set up in some large building. This health exhibit covers 680 linear feet of wall space—an eighth of a mile. There are about 50 sections, including placards, signs, diagrams, pictures and mechan-ical devices. The mechanical devices used are exceedingly ingenious and effective. One of them is a model of a Chipese house. Out of it comes the fig-ure of a man, who walks across his ront yard and then falls into a coffin. whose lids open to receive him. The below the ground. This happens every eight seconds. Placards in Chinese and English explain that someone in the world dies of tuberculosis every eight seconds, and point the moral, "You can help stop this unnecessary procession to the grave." This is a new idea. The Chinese, reading the placard, ask "How?" and the instructor explains.

Low-Heeled Stippers for Evening.

THERE is a greater call for low-heeled dancing slippers this winter than ever before," said a clerk in a St. Louis shoe store. "The small, high heels heretofore accepted as correct for evening wear are beginning to give way before a low, but prettily shaped heel which gives comfort without looking too heavy. The manufacturers are learning to combine common sense and beauty in footgear as well as in other articles of dress, and women are only too gind to welcome normal, sensible styles which yet do not sacrifice their attractive appearance.

GERMANY HOPED TO 'COLLECT PRICE OF WAR FROM U. S.

Gerard Says Thinly-Veiled Boast Was Made by von Tirpitz and Others.

"DEEP HATRED" FOR US

"If German Citizens Don't Stand With Us I Think I Know Where to Festoon Them."

BOSTON, April 19.—Former Ambassador James W. Gerard last night disclosed facts which he said had been kept from the American people during the past two and a half years. He was the principal speaker at a national defense dinner given by the Pilgrim Publicity Association. Gerard said that Admiral von Tir-

pitz, in thinly veiled statements, and

the German Reichstag anad Prussian Parliament in open discussions proposed the institution of unrestricted submarine warfare against England with the intention, "when England should have been subdued by hunger to come over to the United States and collect the price of the war from us."

"I want to tell you," Gerard added," "that if we had not gone into this war, Germany would have fulfilled its intention to come over here afterwards and attack us and would have done so almost with the applause of the rest of the world. I can tell you also that

everything consistent with honer was done to keep us out of the war. Beyond that I am sure none would have us go."

The former Ambassador expressed his belief that citizens of German descent would prove loyal, "but," he added, "if they do not stand with us I think we know where to festcon them. Gerard'a statement that the war would be a hard one was echoed by Major-General Wood. "No one can tell how the war is going.

to go, as far as we are concerned," he said. "It may be a very serious thing for us. It is very serious now. We have got to send a lot of men across the sea and we must bring back a lot of men who die on the other side. It will not be a paper war. It will be ', war of living men and important as food, money and munitions may be, men will be the big factor."

'HOLD TIGHT" ORDER AVERTS INJURIES WHEN CARS COLLIDE

One Woman and Motorman Slightly Hurt in Accident on Kirkwood-Ferguson Line,

Two Kirkwood-Ferguson cars collieded at 8:20 o'clock this morning at Evans and Rosalie avenues, 1½ miles south of Clayton. A Mrs. Rafferty, whose address was not learned, received an injury to her knee. One motorman was cut by flying glass. On account of derailment of a car at Brentwood Junction, the west-bound track was being used for traffic both ways. An east-bound car was running rapidly down grade when a west-bound car came in sight around

There were about 50 passengers on the eastbound car, including many women and children. Some one shouted an order for them to hold tight to their seats. They did so and were not hurt when the cars came together. The vestibules of both cars were smashed.

INERTIA

This, coupled with the pill and laxative habit, is the chief reason why women suffer even more than men from constipation and intestinal stasis.

Laxatives and cathartics are without exception irritants which whip the bowels into action and over-stimulate the intestinal nerve-centers. Physicians recognize that their habitual use brings serious consequences, such as appendicitis, intestinal toxaemia and ronic constipation.

Hence physicians nowadays avoid the drug remedies. Nujol, an intestinal lubricant, is a far safer and more effective means of relieving constipation. It keeps the intestinal contents soft, soothes and lubricates the irritated mucous membranes and helps to re-

store normal bowel activity. Unlike drugs or physics Nujol is not absorbed by the system, and does not form a habit. As Nujol is not a physic but a lubri-

cant, it does not gripe or upset the system. Being tasteless, it is not unpleasant to take. The Standard Oil Company (New

Jersey) has used its world-wide, resources in producing Nujol and its reputation is behind the product.

Nujol is the only remedy for constipation we manufacture. The genuine sold only in pint bottles bearing Nujol trade-mark. All bottles filled at our Nujol plant, absolutely modern and sanitary.

Write today for an instructive book-let on Nujol and its uses.

Red Blood for Pale People!

(New and Instantaneous Home Method).

A bon to women troubled with superfluous hair is the new phelactine process. It is totally unlike the depilatory, electrical and other methods heretofore employed for the removal of hairy growths. It is the only thing that enables one to remove the hair completely—roots and all—in one's own home, without the assistance of an expert. The result cannot be doubted, for the user sess the hair-roots with her ewn eyes.

A stick of phelactine, with easy directions, can be had at any drug store. It is entirely harmless (a child could asfely eat it), oderless and non-irritating. Always sold under a money-back guarantee. It is an instantaneous method, and so thorough that the skin is left perfectly smooth and hairless, bearing not the least evidence of its former disfigurement.—ADV.

August Begemann Jr. Visits St. Louis in Attempt to Raise Fund.

August Begemann Jr., cashier of the 'armers' and Merchants' Bank of Hermann, Mo., returned today to Hermann from St. Louis, having come here in the ndeavor to raise money to make up a shortage in his accounts, which is said by State Bank Examiners to be about \$33,000. Pending his efforts the

Bank Commissioned Enright, at Jefferson City, said he was informed, by two inspectors now in Hermann, that Begemann's shortage was of only a few months' standing, and was concealed by a plan of manipulating ime deposit accounts, which form an mportant part of the bank's busi-

The commissioner also understood, he said, that the concealment had been aided by removing loose leaves from the book containing the record of deposits. He would not say whether the shortage had been discovered in the ordinary course of inspection, or whether his office had received a tip on the matter.

Bank May Reopen.

The closing of the bank was ordered by Examiner Magruder at the close of business Tuesday evening. If Begemann money needed, and settles his account, the bank will be reopened, and it is understood that he will not be prosecuted. As the bank is not a national bank, the matter does not seem likely to reach

the Federal grand jury.

Theodore Graf, president of the bank, said he believed Begemann would be able, with the help of relatives in St. Louis, to make up the shortage. Graf said Begemann told him he had lost in steel and copper stock speculation. He has a wife and two children, and has 100 V held his position in the bank eight years. He said the obligations of the bank would be paid in full. It has a capital of \$30,000, a surplus of \$8000, deposits of \$160,000 and loans of \$180,000.

ART LEAGUE AWARD MADE FOR EADS BRIDGE SQUARE DESIGN

wald Froese and Ralph Rauft Get ond and Ernest Friton Third. Ewald r'roese and Ralph Ranft, associate architects, are the joint winners of the Art League's competition for a design for the beautifying of the public

square at Third street and Washington venue, at the west approach of Eads The prize was \$150. Second prize, \$50, was awarded to E. C. Christopher, draftsman and assistant to the City Plan Commission. Third honor was riven to Ernest Friton, a draftsman

The jury awarding the prizes was mposed of William D. Crowell, Guy Study and Louis La Beaume.

The Froese-Ranft plan provides for nonument at the intersection of Third street and Washington avenue which shall divide eastbound from westbound raffic, and which shall form the cen ter of a street car loop for the lines on Washington avenue. North of this mon ument are a public comfort station, drinking fountain for horses and dogs and a public scale. No change in the present buildings is included in the plan, as it is believed that with the prope improvement of the square, the old buildings will in time be replaced by

etter ones. Froese and Ranft received their architectural education in the Atelier St. Louis, the free night school of architecture in the Central Public Library. a branch of th Beaux Arts Institute o

Electric Service Editorials

Learning How to Use Electric Service

Everybody's doing it. It's as easy as eating, once we know how, but at the start few of us know how. That's why we get a good many emergency repair calls.

Most of the troubles are trifles. Full 50% of them are fuse blow-outs.

The blowing out of a fuse is like the escaping of steam through a safety valve—a safeguard against possible danger. With this difference, that when a fuse blows out the danger is past.

> Until electric household appliances began to come into general use, electric energy, for lighting only, was fed into the average small house or apartment through a fuse of 6 amperes current capacity.

Friend Wife, seeing her neighbor make ber work lighter and cooler with an electric iron, gets one. She attaches it to the lighting fixtures. If the lights are off at the time, all goes well. If the lights are on, the double demand of lamps and iron may exceed the current capacity of the 6ampere fuse. If so, it blows out. The iron goes cold and the lights go off-until our nearest repair man can get there in his Ford flivver and install a new

Instead of the 6-ampere fuse he puts in one of 10-ampere capacity and friend wife has no more fuse troubles. The 10-ampere fuse is ample for all the usual electric appliances except the electric

For the electric range, requiring 4 to 10 or 12 kilowatts of energy, fuses of 30 to 60-ampere capacity are needed. If we sell you the range, we make sure it is properly installed. If somebody else sells it, and fails to make sure of its proper installation, our repair department soon gets your hurry-up call to set it right—which we quickly and cheerfully do.

Electric appliances—coffee percolators, toasters, washers, irons, vacuum sweepers, etc.—are sold in many places. The big stores handle them, and the electric shops. We sell no end of them over the counter in our several stores.

If when buying your first appliances you'll tell our salesfolks they ARE your first, we'll be glad to have our man put in a bigger fuse if it is required.

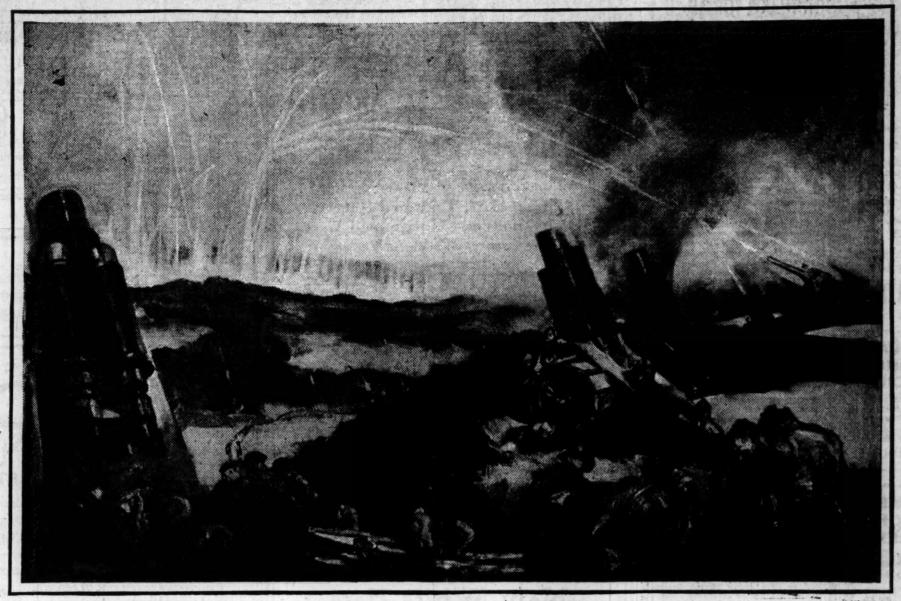

It is cheaper all around, and more agreeable, to prevent trouble than to correct it.

Curtain fire

The old way was to put advertising behind the selling force of a business.

The new way is to put advertising ahead of the selling force.

Just as the modern general hurls over the heads of his charging regiments a curtain fire from the heavy artillery, so the modern manufacturer prepares the way for his attacks by a continuous fire of advertising.

The Saturday Evening Post is the heavy artillery of commerce.

It is the Dominant Publication of America.

Those manufacturers who, through advertising, dominate in their respective industries, are the dominant users of space in its pages.

They know that the market which the Post sweeps is so vast that it cannot be exhausted.

Never yet has there been in the Post an advertising campaign, no matter how great, that even approached its full potential of the trade to be won there.

The house that could get all the business in its line, of even half of these two million families, would be unable to take care of the orders.

The largest advertiser in the Post is still increasing his schedule.

This market can never be monopolized. There are industries in which a dozen or more manufacturers are constantly using the Post. Each is increasing his own sales. And each is helping all the others. Together they are steadily widening the bounds of a

market in which there is always room for still more contenders.

Thus the competition made possible by the Post is a great constructive force.

The struggle is swift and keen, and open to all. In this arena every man, small or great, may win according to the strength of his stroke.

The Post cuts down the waste of competition and distributes goods to the consumer at lower cost.

Its volume of advertising today is huge because there is so much merchandise to be moved, and because the Post has proved to be the economical means of moving it.

In this week's issue are advertised the products of 120 different businesses. The majority of the advertisers are the leaders of their fields.

Most of these manufacturers appropriate a small percentage of their gross sales for advertising. Every dollar invested in the Post must produce in actual sales not less than \$50. Otherwise advertisers would not continue to use the Post.

This vast volume of sales which Post advertising stimulates is a stabilizing influence felt throughout the entire commercial structure of America. Not only the manufacturer and the merchant, but also the banker, today recognize the power of the Post. It forms a legitimate basis for credit.

The Saturday Evening Post is a curtain of fire under which the whole front—salesmen, jobbers and dealers—moves forward and sweeps the field.

Delegation of Cincinnati Royal Rooters Arrived This Morning to Attend Local National League Inaugural and the Ensuing Banquet.

M ILLER HUGGINS and his Cardinal Idealists returned from their swing around the Western circuit, this morning, tied for a first division berth with Chicago.

The National League season in St. Louis will be opened today at Robison Field, Cincinnati being the opposing team. The Cards and Reds tied for last place in 1916, but at present the Reds are in second position and the Cardinals

Flans for the first game provide that 'Red' Ames and Toney will be the rival pitchers. Toney defeated the Cardinals in Cincinnati during the recent visit of the St. Louisans.

A delegation of 125 Cincinnati supporters, including Governor Cox of Ohio and President "Owgoost" Herrmann of the National Commission, arrived this morning and were breakfasted at the Mercantile Club.

The visiting notables will then be entertained with a sightseeing trip.

track meets and a 19-mile maration to be staged by the Tangled C this season. The South Side Club will go ahead with its athletic program until absolutely forced to abandon the game because of lack of men to take part in the events. There is no chance for the C. A. C. to take over the 25-mile marathon and the 10-mile national A. A. U. river swim recently dropped by the Missouri Athletic Association, it was announced this morning by Paddy Fitzgerald, athletics director at the club.

It is expected that the first meet will be held early in May and will be open to all athletes in the city. Another probably will be the Western A. A. U. championships, if the war conditions permit them to be held, and the final one in September, a handicap affair. The 15-mile run will be lied either in June or July.

"We will have enough to le running off our regular events," said Fitzgerald this morning, "without even sttempting to take the two classics dropped by the Missouri A. We will go ahead with our prepare," and the condition for the events, but we have prepare, call off the events, but we have prepare, call off the events, but we have prepare, call off the events, but we have condition for the coming event.

The military drills held at the club twice a week are drawing out more candidates every week. At the drill staged last night 135 well as the entire force from the track, basket ball, soccer and baseball teamy took jart. These drills will be continued for some time to come.

100,000 SPECTATORS TO VIEW BOSTON MARATHON

BOSTON. April 19.—The American marathon race, generally regarded as the champion long-distance running event of the country, was renewed for the 21st year over the roads between Ashland and this parts of this country, Canada and Greece were entered, and more than 100,000 spectators gathered along the 25-mile course.

The field contained several runners believed capable, under favorable conditions, of bettering the record for the event—1, 21m. 18-1-5s, made by Michael J. Ryan of New York in 1912. Among them were Hans Kolehmainen and Villir Kyranen, both of New York: Clarence H. De Mar and Arthur V. Roth, local runners, who won the event in 1911 and 1916, respectively: Hans Schuster, winner of the recent Bronx marathon, winner of the recent Bronx marathon, mind of Mashington, who finished ninth last year.

Indians Score First Run While Browns Turn an Unusual Double Play

The Browns perpetrated an unusual double play, retiring the side before the continuity of action in the two-play killing was broken yesterday; but Cleveland scored a run just the same.

In the first inning, Chapman singled after one was out. Speaker also singled, sending Chapman to third. Then Wamby, who had relieved Roth as cleanup hitter, rolled to Pratt, who chased Speaker back towards first, finally tossing to Sisler who registered the out on Wamby. Speaker then was surrounded and run down, as he tried to slide back into first, Sisler to Lavan to Sisler.

During the mixup, Chapman scored and the run was quite properly allowed. However, a double-play was made on the grounder which gave Chapman the opening to score and that double play retired the side. Both outs were made at first base, by G. H. Sisler, Michigan,

Jacobson's Hitting May Solve Browns' Problem

Twice in Succession the Big Right Fielder's Drives Have Rescued the Browns-Team Departed Last Night With Severeid in Shape and Outlook Much Improved.

By W. J. O'Connor.

A SSISTED by the Indians from the lake regions of Ohio, the Browns yesterday filmed a nine-reel feature that embodied as many one could expect without the use of the Keystone police.

Interest was sustained to the very last flicker, when Ward Miller, pinching for Bob Groom, crashed a single off the allen third sacker's shins and won the old ball game, 3-2. Indeed there were so many features that it is altogether difficult to decide

that it is altogether difficult to decide where to begin. Some may think that Jimmy Austin's three hits, relieving as they did the monotonous nothingness in Jimmy's "hit" column, stand out as the real punch; others may contend that Dave Davenport's fine pitching for five frames meant more to the Browns while possibly there are those who feel that the fact that the Browns began hitting in concert and made 18 safeties, is paramount to all other issues.

Such partisans can fight it out to suit themselves, but the writter is going to cling to the belief that "Baby Doll" Jacobson saved the show by his one tremendous wallop that knotted the socre in the sixth inning. This was the second time in as many days that Baby Doll exploded a two-base hit against the left field fence, and, as on the previous day, it was the determining factor of the ball game.

Jacobson's Clout Scores Two.

Jacobson came to bat yesterday with with the Indians out in front, 2-0. Aus-

with the Indians out in front, 2-0. Austin and Sisler, two of the fastest men in the game, were on the tow-paths. Jacobson picked out a high fast ball and gave it a ride that will long be tremembered. When he put the wood to the seam, Jack Graney turned his back and started for the fence.

He ran until the fence stopped him had then was almost killed by the ball as it rebounded. All this time Austin was patiently waiting near second to see whether the catch would be made. Siller had moved up and was not far behind Austin. When the ball hit the dirt they both set sail, almost a pursuit race, of the case.

Austin scored standing up and Sisler Austin scored standing up and Sisler

Plank Agrees to Pitch Frst Game in Chicago

Wagner Electric stock again featured the trading on the local Stock Exchange today, sales of 142 shares at the forencon session carrying the price from \$175 to \$188, or \$16 per share higher than yesterday's transfers. Rumors that the company has placed some large contracts recently were given as the reason for the upturn. The stock closed slightly off from the top level, with the last transfer at \$185, and final bids at \$180, with ofers at \$18. National Candy common stock was fairly well bought at \$23.50.
United Railways issues were quiet and showed no important price changes from yesterday's call. Bonds reflected a limited investment demand for the standard issues.

THE NEWER OIL FIELDS AND THEIR FUTURE

WYOMING

A leading New York financial journal significantly says: "Eastern fields have been slowing down as producing territories and the Mid-Continent field is now the big producer. As a potential producer Wyoming has won-derful possibilities."

derful possibilities."

The same authority might have conservatively added that Wyoming's oil production is already spectacular, that its fields are being taken over by powerful oil interests, that numerous companies virtually unknown a few months ago are liberal dividend payers. Added to this, many of the leading Wyoming oil stocks have advanced hundreds of percent, of late and still further as to unding developments are made and production on a steadily increasing scale proceeds.

We solicit immediate inquiries regarding the following active Wyoming issues:

Midwest Refining Merritt Oil

Midwest Befining Merritt Oil
Elk Basin Pet. Midwest Oil
Grass Creek O. & G. (Pfd. & Com).
Elkhorn Oil Co. . . Parker Oil Co.
Western Exploration
Glenrock Pet'm

and numerous others which will shortly be introduced to trading on Western exchanges and on the New York Curb market.

DOES RHEUMATISM BOTHER YOU?

Many Doctors Use Musterole

So many sufferers have found relief in Musterole that you ought to buy a small jar and try it.

Just spread it on with the fingers. Rub it in. First you feel a gentle glow, then a delicious, cooling comfort. Musterole routs the twinges, loosens up stiffened joints and muscles. Musterole is a clean, white ointment, made with oil of mustard. It penetrates to the seat of pain and drives it away, but does not blister the tenderest skin. It takes the place of the mussy, old fashioned mustard plaster.

It takes the place of the massy, or fashioned mustard plaster.

Musterole is recommended for bronchitis, croup, asthma, pleurisy, lumbago, neuralgia, sprains, bruises, stiff neck, headache and colds of the chest

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges. torpid liver, acid stomach, sleeplessness and all sorts of bladder disor-

You simply must keep your kidneys active and clean, and the mo-ment you feel an ache or pain in the kidney region get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpen-sive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says
